Special Education Automation Software (SEAS)

Individualized Education Program (IEP)

SEAS – Individualized Education Program

Background:

- Scantron, the managing company for Exceed, no longer supports Exceed.
- Allows the district to venture into something new.
- After many months of careful research, a new vendor was selected from seven candidates for RtI, 504, GATE, Discipline and IEP. The board approved SEAS as our new IEP system.

SEAS – Individualized Education Program

SEAS IEP enables Special Education to:

- Customize forms incorporating district and state standards,
- Create rules driving timelines compliant with state and federal laws.

SEAS – Individualized Education Program

Forms Review:

- Forms were reviewed by the Core Implementation Team comprised of 17 staff from different areas and the Community Advisory Committee (CAC).
- Forms were developed based on feedback from various groups.
- Currently performing system and forms testing, an ongoing process.

SEAS – Individualized Education Program
