

# San Diego Unified School District Redistricting Engagement Committee

Presentation to the San Diego Unified Board  
of Education  
December 7, 2021

# Why Redistrict?

---

- Every 10 years after the Decennial Census, San Diego Unified School District must consider redrawing their district boundaries to reflect the changes in population – Data delayed this year
- All redistricting must use the 2020 Census PL94-171 data and associated Census geography
- Trustee subdistrict boundaries are separate from school attendance boundaries.

# Voting Rights Act of 1965

---

Voting Rights Act of 1965 – to remedy the inequality of opportunity provided to racial and ethnic minorities to participate in elections

# Redistricting Criteria

---

- ❑ Equal Population – All subdistricts should have equal population - as equal as possible
- ❑ The Maximum Deviation should not be more than 10%
  - ❑ Maximum Deviation is the difference between the most populated subdistrict and the least populated subdistrict.
- ❑ Subdistricts should be compact and contiguous
- ❑ Minorities should be fairly represented
- ❑ Communities of Interests

# Redistricting Engagement Committee

- ❑ Reviewed current plan (status quo) plus 7 new plans
- ❑ Bringing forward to the board 3 plans for consideration:

## Status Quo

- No change in boundaries
- Results in 3 ethnic plurality subdistricts
- Pop. Deviation is 9.33%

## Plan E

- Creates 4 ethnic plurality subdistricts
- Pop. Deviation is 3.73%

## Plan E-1

- Creates 4 ethnic plurality subdistricts with more balance in schools and clusters
- Pop. Deviation is 3.81%

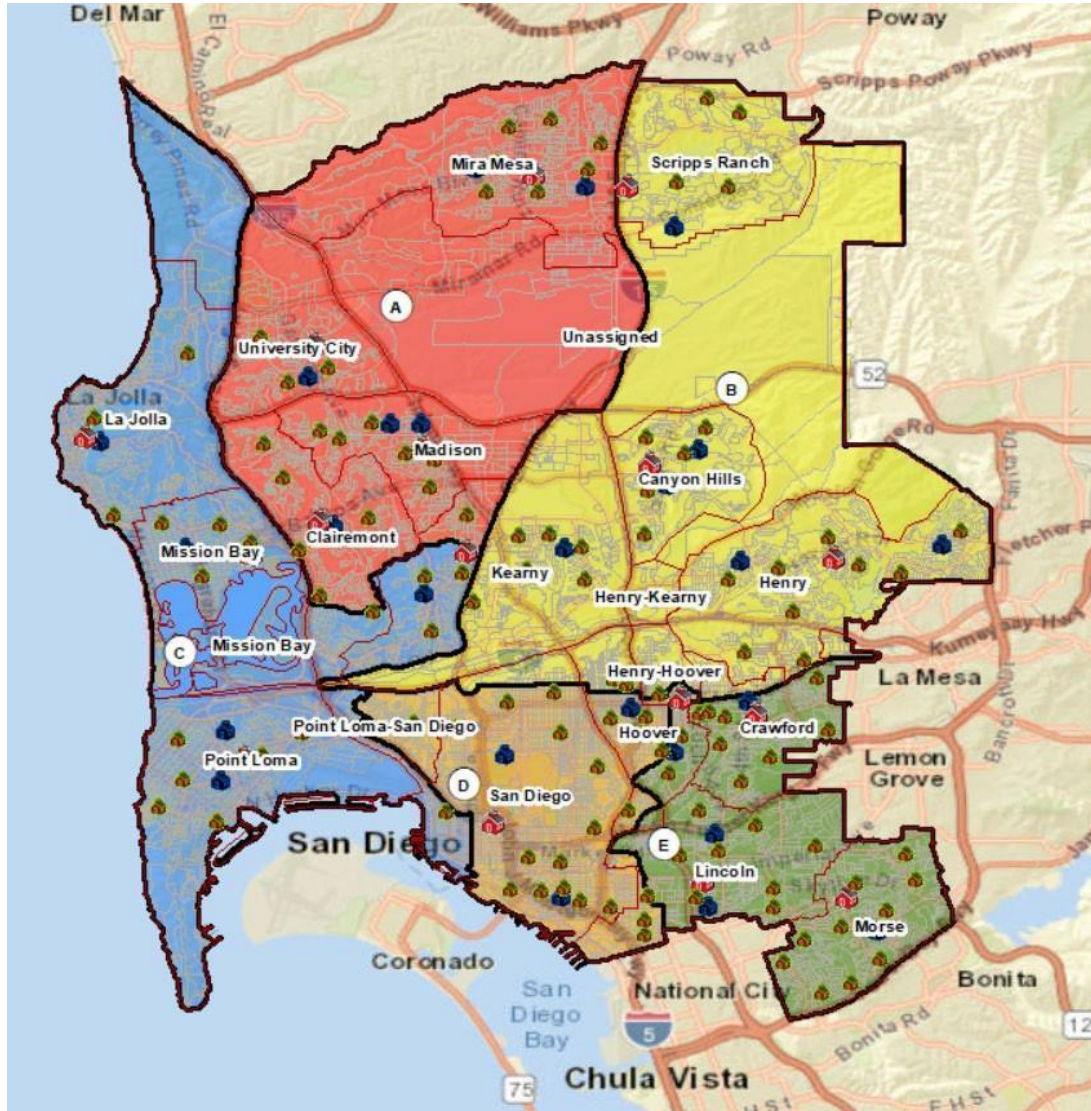

# Status Quo - Current

---

# Subdistricts

2020 CENSUS DATA APPLIED TO CURRENT SUBDISTRICT  
BOUNDARIES

# Current Districts based on 2020 Census

Demographic Totals		
Race/Ethnicity	Total	%
